Requested Action:

There is no requested action for this item. This is an informational item only.

Background:

As mandated in [Education Code Section 10866](#), the Office of Cradle-to-Career Data is required to submit regular reports to the Governor and California State Legislature related to the implementation of this chapter, and the report to the Legislature is due on September 1 of each year. The report includes updates on the data system, and Governing Board (Board) members will receive a preview of the report during the August 9 Board meeting.

Overview:

C2C's report to the Legislature documents the progress made during 2022–23, the second year of the C2C's implementation. The first year of implementation prioritized continuity with the vision and plans defined during the C2C planning process. Now in its second year, C2C is focused on progressing the strategic vision, mission, and goals of the Office of Cradle-to-Career Data (Office).

As part of the 2023 strategic planning process, C2C identified problems and areas of opportunity that can be addressed through the work of the Office. This report to the California State Legislature takes an in-depth look at the progress made across all verticals, which include Operations, Engagement, Analytical Data, Practical Tools, and Boards. The report to the Legislature also highlights the Office's accomplishments in 2022-23 and outlines the priorities, goals, and objectives of the Office for the coming year.
