

Cradle-to-Career Governing Board Staff Report

Date Report Issued: October 25, 2023
Attention: Members of Cradle-to-Career Governing Board
Subject: **Schedule of Future Data Providers**
Staff Contact: Marykate Cruz Jones, Chief of Strategic initiatives and Partnerships

At this meeting, the Governing Board (Board) will have the opportunity to learn about the scheduling of future data providers.

Requested Action:

There is no requested action for this item. This is an informational item only.

Background:

At the August 9, 2023 Board meeting, Chair Fong proposed the implementation of a standing item at each Board meeting, inviting Data Providers to provide updates to fellow Board members and the public.

Updates from Data Providers will allow Board members the opportunity to report about all the important work their appointing authority has completed or is underway to advance the data system. It would also illuminate how the State's investments in this work go beyond the work of the Office of Cradle-to-Career Data and include necessary and important effort, expertise, and resources at each of C2C's Partner Data Providers.

Presentation Content:

After Chair Fong presented this item, a member of the Board asked for additional specifics about content and format of the presentation. A memorandum was shared with all Board members on September 1, 2023 detailing specific information related to this request. Some experts of the memorandum have been shared below.

Content. The presentation should provide fellow members and the public with an idea of how the data provider organization is collaborating with and supporting the data system. Topics covered may include workflows, data reporting, data projects, communications projects, system improvements, and how resources are being deployed. The presentation can also highlight any unique insights into the world of the data provider or other useful publicly available data or resources. Topics may also include presentations given that relate to the work of the data system or projects worked on in tandem with the Office.
