Requested Action:

There is no requested action for this item. This is an informational item only.

Background:

In November 2023, C2C celebrated its first data ingestion. In March of this year, C2C completed its first regular annual data submission from data providers. This summer, C2C is focusing on the linking of records, the metric calculations for the first dashboard, and the integration of data with visualizations.

The updates presented today will include information on the data validation collaboration with C2C's data partners, the continued process of implementing security controls with collaboration from our data partners as the data system's functionality expands, and initial reflections on the process of linking records across different data providers.
