Cradle-to-Career Data and Tools Advisory Board Proposal Update Form

Instructions:

Per the [Governance Manual](#), Advisory Board proposal authors may update or clarify their ideas in response to the Office of California Cradle-to-Career Data System's (Office) feasibility process. This form provides structure to the proposal updates, ensuring they effectively address the flagged issue and meaningfully advance the Office's work. Please note there should only be one update per form. An update should **clarify** the original proposal.

Name:

Lisa Catanzarite, Ph.D.

Which proposal are you submitting an update for?:

Adding Pathways and Placement Data to Strengthen Teacher Workforce Insights

Identify which section should be updated (Check only one):

Section 1. Changes to the Data Request Process

- 1.1 What is the nature of the issue with the data request process?
- 1.2 What action should be taken to address the issue?
- 1.3 Who could benefit from this action?
- 1.4 Who would implement this action?
- 1.5 How does the action relate to the mission and vision of C2C?

Section 2. Changes to Tools Such as Dashboards or Practical (Operational) Tools

- 2.1 What is the nature of the gap regarding access to actionable information?
- 2.2 What type of tool should be developed?
- 2.3 How would a tool address the gap?
- 2.4 Who would be the likely user(s) of the tool?
- 2.5 How does the tool relate to the mission and vision of C2C?

Section 3. Adding Data Points Not Available Through the P20W Data Set or Adjusting the Existing P20W Data Points

- 3.1 What data point should be added or changed?
- 3.2 Who would use the data point?
- 3.3 How would the data point be used?
- 3.4 Who would provide the data point?
- 3.5 Does the data point already exist in a state-level data set or would it need to be collected by local institutions and reported to state agencies?
- 3.6 Which population(s) should be included in the data point? (such as K-12 students or workforce development participants)
- 3.7 How does the data point relate to the mission and vision of C2C?

What language do you want to change in the proposal?

Items 3 & 12—additional specificity.

What action do you want to take towards this language? (Check only one)

- Add language
- Clarify language/definitions
- Change the scope

What is your update for the proposal?

Additional language:

Item 3:

Where the CTC and CDE data sets contain different metrics that measure slightly different underlying issues, C2C should assess differences and the purposes for which alternative metrics may be used. Based on C2C assessments, C2C should use its discretion to decide which metrics and which levels of aggregation are appropriate for the public-facing dashboards. For the data request process, C2C should attempt to include all available metrics (including those that may be too sensitive for public-facing dashboards) so that authorized researchers may choose the metrics that best suit their research questions and purposes.

Item 12:

The proposal is requesting *both* options, as laid out in the Feasibility Study:

Option 1: Include additional data points and visualizations in the Teacher Training and Retention dashboard.

and

Option 2: Through the research request process, allow researchers to conduct analyses that examine the relationship between teacher preparation and student outcomes.

[What issue does your update address?](#)

Additional language provides greater specificity for Item 3 regarding data and Item 12 regarding use cases.

[How would your update resolve this issue?](#)

Item 3: Explicitly acknowledge differences in CDE and CTC datasets and acknowledge role of C2C staff in assessing nuances and divergent possible

uses of different data elements, and making determinations regarding dashboard elements.

Item 12: Explicit request for both Options, acknowledging the importance of providing key teacher training and placement metrics on the public-facing dashboard and the value of providing all metrics to authorized researchers.

[Provide specific actions the Office could take to implement this update:](#)

Clarifications noted above.
